

## Far Out: A Space-Time Chronicle

Filesize: 4.91 MB

### Reviews

*Most of these ebook is the perfect publication offered. Sure, it really is play, still an interesting and amazing literature. You wont truly feel monotony at whenever you want of your time (that's what catalogs are for about in the event you check with me).*

*(Roosevelt Rohan)*

Harry N. Abrams. Hardcover. Book Condition: New. Hardcover. 320 pages. Dimensions: 11.8in. x 11.7in. x 1.1in. In Far Out: A Space-Time Chronicle, author and filmmaker Michael Benson assembles an outstanding collection of astronomical images from observatories around the world and in space. We live in a golden age of astronomical observation. Some of the resulting images are well known and have inspired millions of people; others, equally breathtaking, have never been published before. For this book, Benson has culled the very best, and organized them into a thrilling journey through space and time to the universes great places, ranging from nearby nebulae in our own Milky Way galaxy to the light of the Hubble Deep Field that has traveled billions of light-years. Every bit as innovative and beautiful as the authors successful *Beyond: Visions of the Interplanetary Probes* but far grander in conception, *Far Out* is an inspiring work of art and science on the cutting edge of human perception. *A Guide to the Cosmos, in Words and Images Dazzling and True* *New York Times* Book Review With *Far Out* Take a good long look into space-time. *Los Angeles Times* *Far out* by Michael Benson proves that putting the photographable universe into a book doesnt dampen its beauty. *Mens Journal* An exquisite picture book of outer space. *San Diego Union Tribune* *2001: A Space Odyssey* and *Far Out: A Space-Time Chronicle*: both are inspirational moving pictures. *Far Out* punches deep into space, like a series of jump cuts. It is a truly cinematic experience to see these magnificent images in rapid succession. Like the Star-Child in Stanley Kubricks vision of a Mankind evolving to a higher level, *Far Out* inspires me again to imagine a Universe filled with life, and each of those billions of pinpoints being orbited by worlds and beings...
