

Conception of Vulnerability Forces to HIV/AIDS Infections among Secondary Schools Students in Tanzania

By Joseph Manase

GRIN Verlag Jun 2012, 2012. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Neuware - Scientific Study from the year 2012 in the subject Health Science, University of Dodoma (College of Education), language: English, abstract: ABSTRACT The study designed to assess forces for vulnerability to HIV/AIDS infections among secondary schools students in Dodoma Municipality. Cross sectional survey was employed. Both probability and non probability techniques were used to obtain the sample. Objectives of the paper were to determine vulnerability forces to HIV/AIDS infection among students in Dodoma Municipal and identification of risk behaviors that lead to HIV/AIDS infection in the study location. Data analysis was done by statistical package for social science (SPSS) computer soft ware. The findings show that vulnerability forces leading to HIV/AIDS infection among students are among others, lack of awareness and drug abuse, High rate of HIV infection through blood transfusions and widespread sharing of contaminated injecting equipments were the risk forces for HIV/AIDS spread. Some media disseminates HIV/AIDS miss-information, prejudice and myth. Drug abuse, poverty, adolescence stage, peer group, ignorance, carelessness of the students and engagement in sexual intercourse were the main forces for HIV/AIDS spread. Finally...
