paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Paperback. Pub Date :2012-12-01 Pages: 319 Publisher: Chemical Industry Press Basic Information Title: to the the waterworks treatment facility design calculations - the second edition of the original price: 49 yuan: Cui Yuchuan editor Press: Chemical Industry Press Publication Date :2012-12-1ISBN: 9787122149480 Words: 550.000 yards: 319 Revision: 2 Binding: Paperback: 16 Product size and weight: Editor's Summary book in the form of engineering design calculation examples. Intro towns calculate the content. methods and requirements to the waterworks unit processing structures and equipment design. Examples include water coagulation. sedimentation. clarification. flotation. filtration. disinfection. removal of iron. manganese. fluoride. algae. micro-polluted source water pretreatment and depth of processing. the ultrafiltration process facilities. as well as with wells and major unit processes required engineering design structures such as clean water tank 82. Professional engineering and technical personnel of the book available for water supply and drainage. environmental engineering and power plant chemistry and universities and students to use reference. Water quality characteristics of Contents Chapter drinking water treatment Introduction Section 1 natural water quality. impurities in raw water. unpolluted natural water. water pollution situation. the drinking water source of water quality classification in section II drinking water quality requirements. the purposes and methods of the significance of drinking water quality standards. China's current drinking water standard Section III drinking water treatment technology. the significance of water treatment. water treatment conventional drinking water treatment four. pre-treatment of drinking water and the depth of processing five. specialty water quality of the drinking water treatment six membrane technology and water purification plants handling Chapter II of the process of the type of pharmaceutical dosing and mixing facilities a Overview Section II pharmaceutical preparation equipment. dissolving...
