

Electrocatalysis of Direct Methanol Fuel Cells

By Hansan Liu

Wiley VCH Verlag Gmbh Sep 2009, 2009. Buch. Book Condition: Neu. 250x178x49 mm. Neuware - This first book to focus on a comprehensive description on DMFC electrocatalysis draws a clear picture of the current status of DMFC technology, especially the advances, challenges and perspectives in the field. Leading researchers from universities, government laboratories and fuel cell industries in North America, Europe and Asia share their knowledge and information on recent advances in the fundamental theories, experimental methodologies and research achievements. In order to help readers better understand the science and technology of the subject, some important and representative figures, tables, photos, and comprehensive lists of reference papers are also included, such that all the information needed on this topic may be easily located. An indispensable source for physical, catalytic, electro- and solid state chemists, as well as materials scientists and chemists in industry. 584 pp. Englisch.
