Hyden House Ltd. Paperback. Book Condition: new. BRAND NEW, Desert or Paradise: Restoring Endangered Landscapes Using Water Management, Including Lakes and Pond Construction, Sepp Holzer, Desert or Paradise is a practical guide to restoring damaged, unproductive land by constructing or restoring lakes and ponds to support abundant edible landscapes. These provide fresh water mixed aquacultures, orchards and crops planted along the banks and literally reaquify the surrounding landscape to turn back the tide of encroaching desertification. Desert or Paradise will explain why natural water management is at the centre of any earth restoration; how to design water retention areas that produce 'living' water; show you how to prevent and reverse desertification; how to prevent floods and soil erosion; dam building; growing and harvesting fish; creating economic as well as biological diversity and much more. These restored landscapes therefore can create both agricultural and horticultural yields as well as habitats that team with wildlife. This is whole-systems landscape design at its very best with many proven case studies.
