Brand New Book ***** Print on Demand *****.THE veteran Professor Haeckel, who has been a commanding figure for so many years in the ranks of militant science, has summed up the teaching of his life in the three lectures of which Mr. McCabe adds to his many services to the English student by publishing a clear and admirable translation. These lectures, which were delivered before the Berlin public in the spring of 1905, may fitly be compared with Huxley s famous Oxford lecture on Evolution and Ethics. They form a popular retrospect and summary of the views of human life and destiny, as affected by the great doctrine of evolution, which their author has advocated for fifty years, and which he has seen triumph in the minds of the educated, in spite of the storm of obloquy and the persistent misrepresentation which they had at first to overcome. Professor Haeckel is one of those born fighters who never turned his back, but marched breast forward, like Huxley and Darwin himself. I do not belong to the amiable group of men of compromise he says, but am in the habit of giving candid and straightforward expression to the convictions which a half-century of serious and laborious study has led me to form. This statement is well illustrated by the very lucid and interesting account of this veteran biologist s life and Work by Professor Bolsche, an old pupil of his at Jena, and now himself a distinguished biologist, of which we also owe the translation to Mr. McCabe. A characteristic story relates how once, in the midst of a brilliant circle, the Grand Duke of Weimar began to chaff Professor Haeckel about his belief in the...
