# CLASSICAL CELLULAR AUTOMATA

Book Condition: New. Publisher/Verlag: Scholar's Press | Mathematical Theory and Applications | In the book we present some of results of the work we have done in theory of classical Cellular Automata (CA) and their appendices during 1969-2013 in truth with considerable pauses. These results at present form essential constituent of the CA problems. In particular, we have studied such problems as the nonconstructability problem in CA, decomposition of global transition functions in CA, extremal constructive possibilities, complexity of...

## Reviews

*A brand new e book with an all new perspective. It can be really fascinating through reading period. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Kobe Streich I**

*I actually started looking at this publication. It normally is not going to expense a lot of. You are going to like the way the author publish this book.*

-- **Lane Langworth III**
